

## Little McDonald, Kerbs and Paul Lakes LID

### Venting Status

July 24, 2013

The Ottertail County Board of Commissioners voted 5-0 today July 24<sup>th</sup> to approve the LMKP LID petition to use Ditch 25 and the Operation Plan to the outlet project. This decision represents another important step forward. There still is a 30 day period of time when anyone can challenge this decision in district court. Meanwhile, we will begin their permitting process and continue to secure the land and easements needed to connect to the Ditch.

The question now on everyone's mind is; "When could we see some action on the project?" That will depend upon the approval of the above items and how long it will take to get the necessary permits.

I will give you updates as we move forward, but wanted to advise you as to what happened today.

Roger A Neitzke  
LMKP LID President
