MEMORANDUM

TO: Residents of Little McDonald Lake, Paul Lake, Kerbs Lake and Devils Lake
FROM: Chris LeClair, Director
RE: Moratorium, General Permits and Conditional Use Permits
DATE: August 7, 2018

With the outlet projects commencing in August, 2018, the Land & Resources Management Department has the following requirements for all shoreland activity on Little McDonald Lake, Paul Lake, Kerbs Lake and Devils Lake (Lake #56-245):

1. Moratorium on Lot Alteration Permits and Conditional Use Permits

- a. A moratorium on the issuance of lot alteration permits and conditional use permits is in effect until the initial drawdown brings the elevation of each lake is to its OHWL.
- b. Exceptions to this moratorium include the following:
 - i. Any permit that is not related to shoreline restoration.
 - ii. Projects approved by the SWCD in accordance with the Shoreland Management Ordinance.

2. Post OHWL General Permit

- a. The Otter Tail Board of Commissioners has approved that a Conditional Use Permit is not required to conduct work related to restoration of exposed shoreline.
- b. The Otter Tail County Board of Commissioners has approved Land & Resource Management staff to issue permits for any shoreline restoration after the OHWL of each lake is reached.
- c. The General Permit requires a landowner to apply for a Lot Alteration Permit from Land & Resource Management for a permit fee of \$250 per permit.

3.
